Item description

Distribution connector WINSTA® MINI with protection type IP20

For power and signal transmission: The WINSTA® MINI distribution connector rated current 16 A. Whether on PCBs, in control cabinets or for connecting lights – pluggable installation connectors from WAGO allow you to establish connections according to an enormous variety of requirements in next to no time. For greater protection in electrical installations, the pluggable installation connector is equipped with mechanical protection against mismating. The WINSTA® MINI pluggable installation connector with A coding in black or white is usually used for general mains applications in power distribution. Where space is tight, our smallest pluggable connection system, WINSTA® MINI, conveniently displays its strengths. It is very compact, and, with Push-in CAGE CLAMP® spring pressure connection technology, it also saves time, since the installation is low-maintenance and can be performed without screw connections.

Lower costs through fast commissioning and elimination of service expenses – solutions from WINSTA® MINI

The WINSTA® Pluggable Connection System allows pluggable electrical installation. This saves time, lowers costs, and reduces the need for servicing. Take advantage of the pluggable version of our maintenance-free spring pressure connection technology too! Plan your installation with WINSTA® MINI pluggable installation connectors with protection type IP20 from WAGO.

- pluggable installation connectors with protection against mismating
- consistent IP40 protection
- suitable for any application
- custom-engineered solutions
- rapid, structured electrical installation
