What is the part or process changing from (provide details)?

Summary description of change: Part Change:

Currently the device (s) listed are probed in Allegro's Worcester facility.

What is the part or process changing to (describe the anticipated impact of this change on form, fit and/or function)?

Probe location for the listed device(s) will be moved to AMPI. Allegro is utilizing the same probe equipment, test programs and test methodologies in its Philippine facility as is currently being performed in its US facility. Relocation of probe operations reduces movement of wafers between factories shortening overall cycle time and minimizing wafer handling. All expansions of probe capability and capacity will now occur at AMPI to support Allegro's future business growth.
